

# APPS, APPS AND MORE APPS MAKING THE MOST OF YOUR GIS INVESTMENT

Looking for information to answer the public's questions or finding information to complete your daily work can be frustrating. At times it is like looking for Waldo. With so much data and information to look through, where do you start?

GIS is very powerful but can also be very complicated. **"Apps, Apps and More Apps – Making the most of your GIS Investment"** is a workshop that will walk you through how to access and use the incredible variety of apps that you can produce and publish on ArcGIS Online.

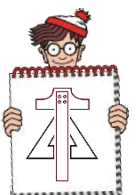

**SEEING IT FROM EVERY ANGLE**  
IF SURVEY DATA IS THE BASIS OF ALL DESIGNS, CAN YOU AFFORD NOT TO HIRE THE BEST?

**MAKE MORE INFORMED DECISIONS**  
DOES YOUR GIS PROVIDER UNDERSTAND THE ASSETS THAT YOU MANAGE?

**Public**

- Chicago Hot Spots
- Exploring Batavia Parks
- Fire Districts - Village of Fox Lake
- Garbage Accounts and Routes - Village of Fox Lake

Using ArcGIS Online, web maps can be edited and updated, allowing the new information to be immediately viewed by anyone who has access to the website link. ArcGIS gives your organization the ability to have the public and staff see GIS in bite sized pieces. Allowing them to get to the information they need quickly.

Notes:
